

K-12 EDUCATIONAL

FULL RANGE OF UNITS TO HANDLE SCHOOL MEAL
PREP AND SERVING CHALLENGES

Solutions for Daily Service

With over 130,000 schools in the United States serving close to 30 million meals daily, foodservice directors are tasked with efficiently providing students a diverse, nutritious dining experience. Trusted in school foodservice throughout the United States and Canada, Victory Refrigeration offers a wide range of high-quality, spec line equipment featuring advanced technologies and extended warranties. With nearly 70 models qualifying for ENERGY STAR, Victory offers optimum performance and efficiency to meet the demand of an educational setting.

Victory offers innovative solutions for both the kitchen and cafeteria area. Featuring school milk coolers, glass-door merchandisers, reach-in refrigerators and freezers, as well as specialty equipment such as warming cabinets, pass-thru, roll-in, or roll-thru models. Foodservice directors will agree with Victory Refrigeration has a solution for any K-12 setting.

MILK COOLERS

Available in 8, 12 & 16 crate capacities, with a modern beveled edge and locks standard, the newly designed forced-air milk coolers offer functional durability for high-volume service periods.

Standard with R290 refrigerant, an electronic control, and durable one-piece stainless steel floor liner for increased strength, these milk coolers are designed for a lifetime of use.

GLASS DOOR MERCHANDISERS

Sleek, modern refrigerator and freezer models available in one, two and three door sections. Victory merchandisers offer a stylish design and are available in a variety of color options to liven the dining area.

Featuring advanced refrigeration technologies, triple-pane ultra-glass doors, LED lights, and locks, Victory's merchandisers are sure to increase interest in grab-and-go food items and beverages.

ULTRA SPEC SERIES

UltraSpec models feature some of the most advanced technologies available from a spec line manufacturer today. Standard with R290 refrigerant, variable speed compressor, adaptive defrost and thermal expansion valves, Victory UltraSpec series can deliver up to 30% energy savings.

The UltraSpec series offers a vast selection of refrigerators, freezers and warming cabinets available in: reach-in, roll-in, roll-thru, pass-thru, narrow width, extra wide and extra tall models to fit any food service need.

ELITE SERIES

Launched in 2019 and boasting over 20 ENERGY STAR certified models, the Elite Series feature the same advanced refrigeration system you expect from Victory at an unmatched value.

Standard with stainless steel front and doors with coated steel sides, aluminum interior, full electronic control, Elite Series models can be ordered from the factory in one, two and three door footprints with solid door, half-solid, glass and half glass door configurations.

MILK COOLERS

Made to deliver consistent performance during multiple services
